

**Title:** CPF field is accepting letters

**Description:** According to the documentation, CPF fields should only allow numbers to be typed.

**Steps to reproduce**

- 1 - Open the insurance quotation page
- 2 - Fill the required fields
- 3 - On the CPF field type letters instead of numbers
- 4 - Click in the "Generate quote" button

**Actual result:**

The message "Invalid CPF" is shown at the screen but the field should only receive numbers

**Expected result:**

Only numbers are allowed on the CPF field

**Severity:** Low

**Priority:** Low
