

Title: System is closing after clicking "Generate quote" Button

Description: After filling all the necessary fields and clicking the "Generate quote" button, the system freezes and it closes right after.

Steps to reproduce:

- 1 - Open the insurance quotation page
- 2 - Fill all the required fields
- 3 - Click in the "Generate quote" button

Actual Result:

After a few seconds of freezing the page closes

Expected result:

The system should display the estimated policy value with no issues

Severity: High

Priority: High
